

Request for Council Action

Originator Public Works	Item Council Consideration of Hauler Services Contract for Organized Collection - Approval for Organized Collection Services Contract
Agenda Section Consent	Date 12/21/2015

Description

The City Council is requested to consider the approval of a contract with Bloomington Haulers, Inc. for the organized collection of garbage and recycling from residential properties in Bloomington. A more detailed description of the contract can be found in the attached memo.

The City Council received a close-to-final draft of the contract last week. A number of minor changes to the draft have been made since then. However, none of the changes substantively change the services or business relationship offered in the contract.

Once approved by the City Council, the haulers will file their consortium documents to form Bloomington Haulers, Inc. and a meeting will be set for the consortium representative and Mayor to sign the final contract.

Requested Action

Approve a services contract with Bloomington Haulers, Inc. to provide organized collection services to residential properties and authorize the Mayor and the City Manager to sign the contract.
